2006-2007 Winter Semester

<b>Project Final- Midterm requirements</b>
--

**A Scenario:**

The midterm is further development of the previous design and needs to be coupled with drawings. After the midterm, the spatial design will continue to develop with programmatic requirements.

**Midterm Studio Assignment: due \_\_\_\_\_**

1. The model is a finish model: use appropriate materials: chipboard, foam core, wood, metals. Try to use a variety of materials to emphasize certain elements. Craftsmanship is a must and it must be complete.
2. Model size about 12" to 18" cube
3. Floor Plans: Full Scale; One for each level
4. Sections: Two
5. One point perspective of inside space.
6. Two point perspective.

*Due dates will be given out in class- it is up to the student to know when the assignment is due.*
